Strategic Senior Product Designer with 15+ years of experience driving commercial impact across Fintech, Retail, and AI.A specialist in end-to-end design for complex, high-scale systems, with a proven track record of delivering measurable growth—including a +£1.2M annual revenue increase at Waitrose and building regulated fintech platforms from zero-to-one. Expertise in combining behavioural analytics with systems thinking to simplify high-stakes user journeys and optimise scalable design systems.

EXPERIENCE

Waitrose & Partners - Senior Product Designer

Oct 2023 - Present, London

- Strategic Growth: Led the redesign of the Product Detail Page (PDP) using interaction design and content hierarchy optimisation, delivering a +2.2% add-to-basket uplift and a projected +£1.2M annual revenue impact.
- AI Personalisation: Increased repeat-purchase efficiency by 400% by architecting AI-driven personalised product experiences and rapid-prototyping recommendation logic with real-time user data.
- Waitrose Cellar: Influenced product strategy for the Cellar onboarding experience, designing journeys that improved user activation and trust through iterative validation.
- Zero-to-One Launch: Owned the end-to-end launch of Meal Plans, designing a personalised, multi-step journey that improved user retention through refined information architecture.

PrimaryBid - Senior Product Designer

June 2022 - Oct 2023, London

- Complex Financial UX: Owned the design of fully responsive financial workflows for IPO investment journeys, balancing strict compliance constraints with high-trust user interactions.
- Operational Excellence: Architected a Broker Dashboard that transformed complex data visibility and information architecture, enabling more efficient decision-making for institutional stakeholders.
- Scalable Systems: Established and scaled a cross-platform design system for the core website and broker tools, ensuring consistent interaction patterns across high-risk financial flows.

Kaizen Languages - Founding Product Designer

Jul 2019 - Jun 2022, London

- Mobile-First Strategy: Defined the product vision and owned end-to-end design for native iOS and Android applications, leveraging mobile-specific interaction patterns and behavioral insights.
- Retention Engine: Redesigned mobile onboarding and user activation flows, successfully reducing churn to below 20% and increasing user progression.
- AI Innovation: Designed a first-of-its-kind interactive writing feature using feedback loops; achieved a 62% NPS (+12% above industry average).
- Founding Leadership: Built a scalable design system from the ground up to support consistent learning journeys across mobile and web.
